

Visit the website and click on the "Important Link" on the right side to first download the JRE, then the PKI Component (32/64 bit), based on your system. Be patient during the installation process of both the JRE and PKI Component.

1) JRE Installation

Open the link <https://www.openlogic.com/openjdk-downloads>

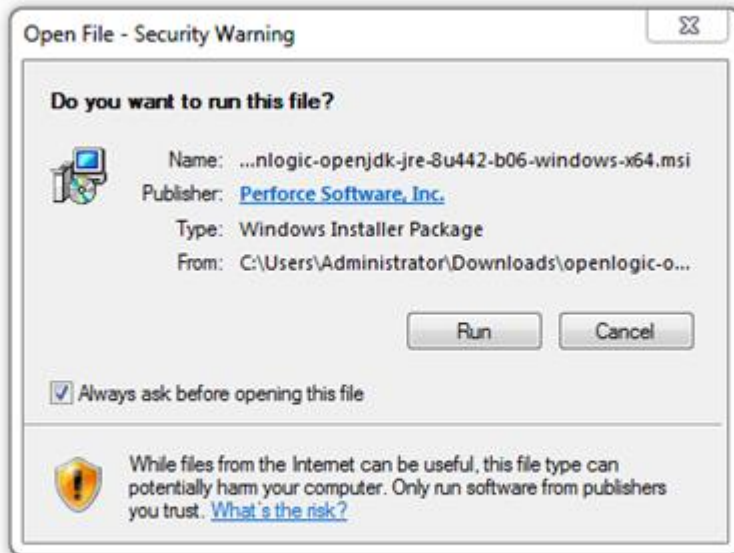

OpenLogic's OpenJDK Downloads

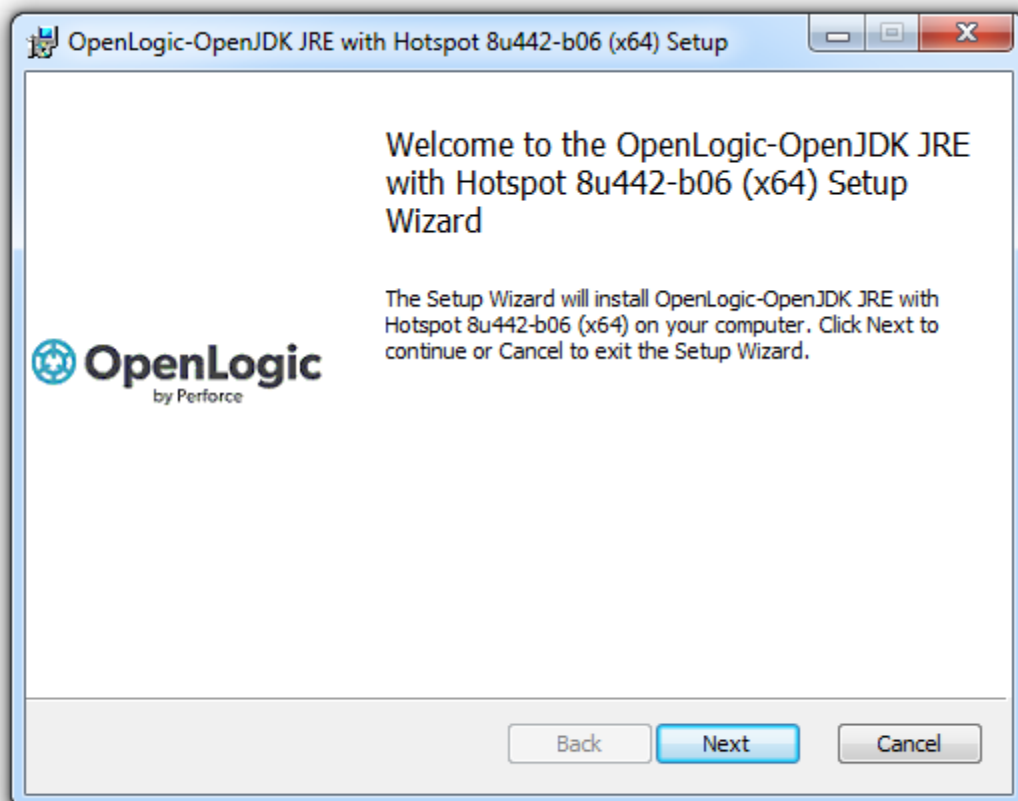

JAVA VERSION: 8
OPERATING SYSTEM: Windows
ARCHITECTURE: x86 64-bit
JAVA PACKAGE: JRE

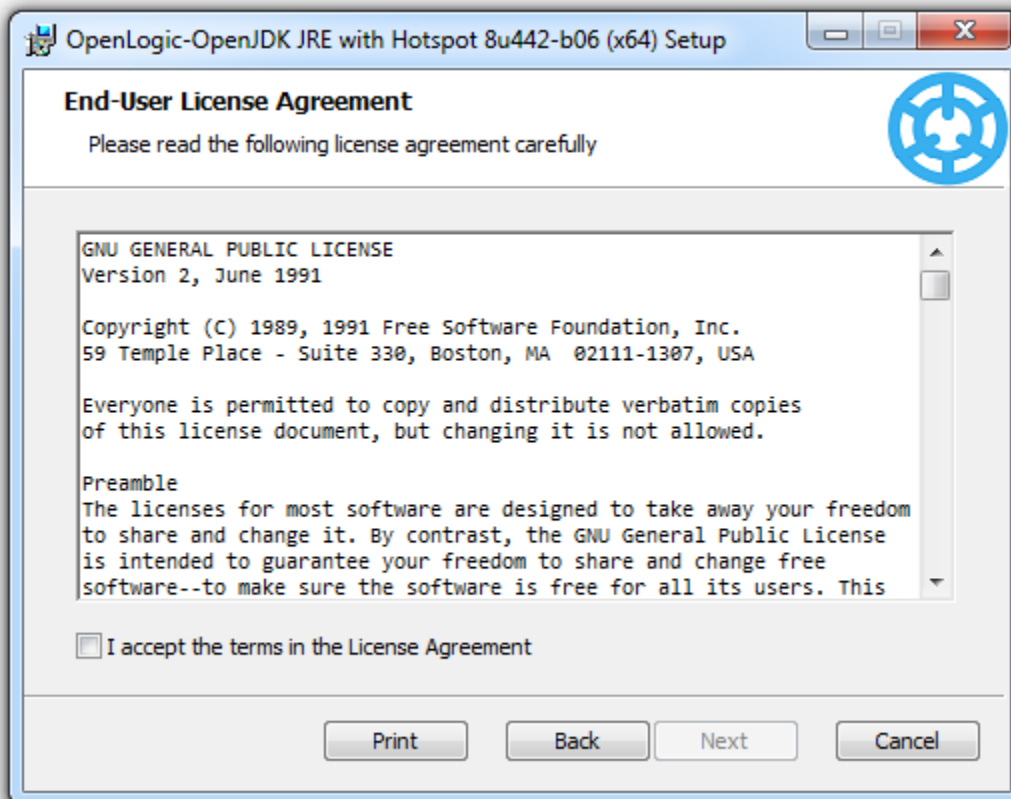

Java 8

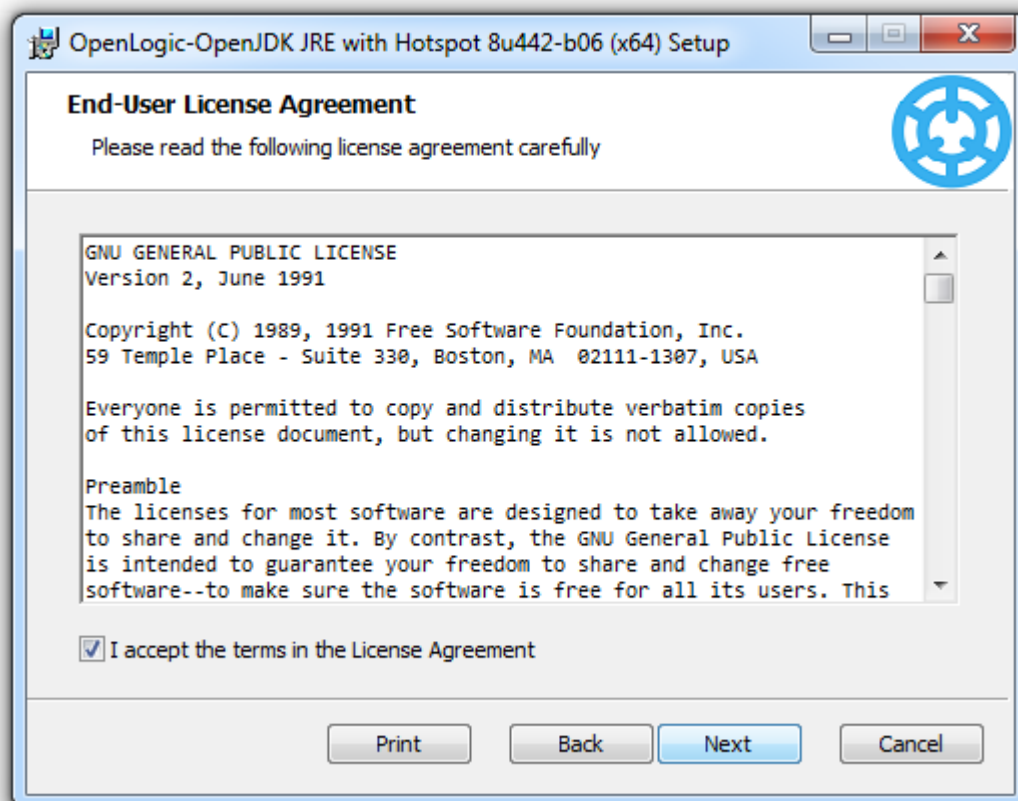

JAVA VERSION	OPERATING SYSTEM	ARCHITECTURE	JAVA PACKAGE	DOWNLOAD
8u442-b06	Windows	x86 64-bit	JRE	.msi .zip

Find the below steps for installing JRE 8 32/64 according to your system.

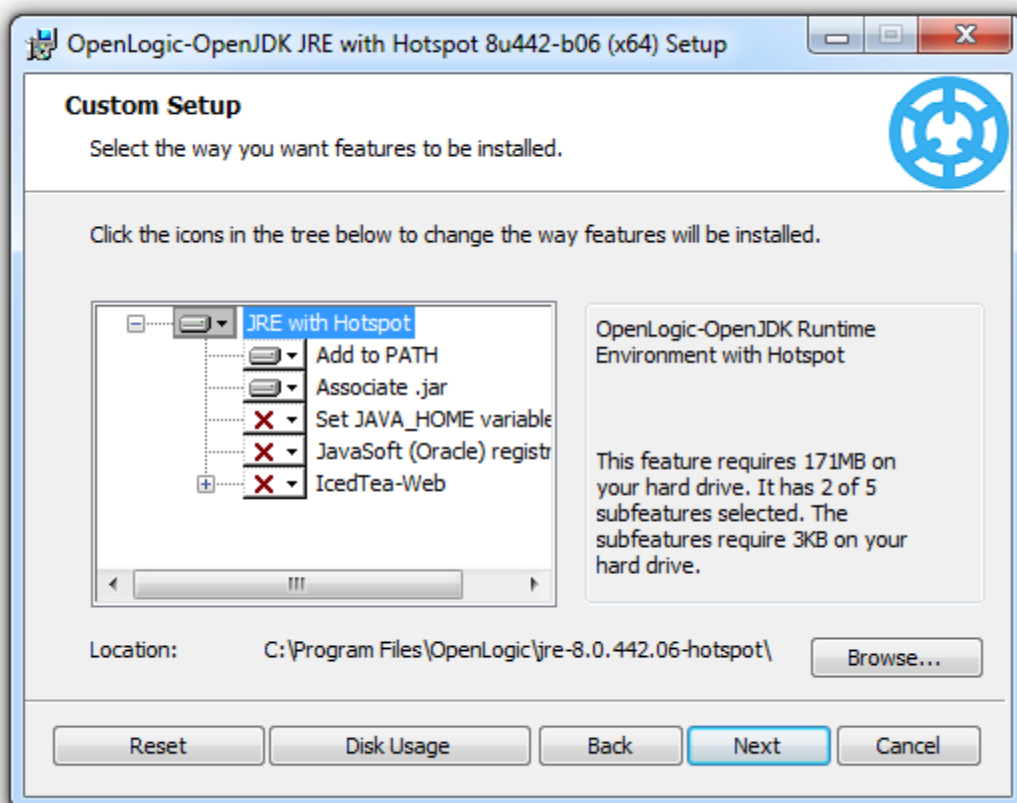

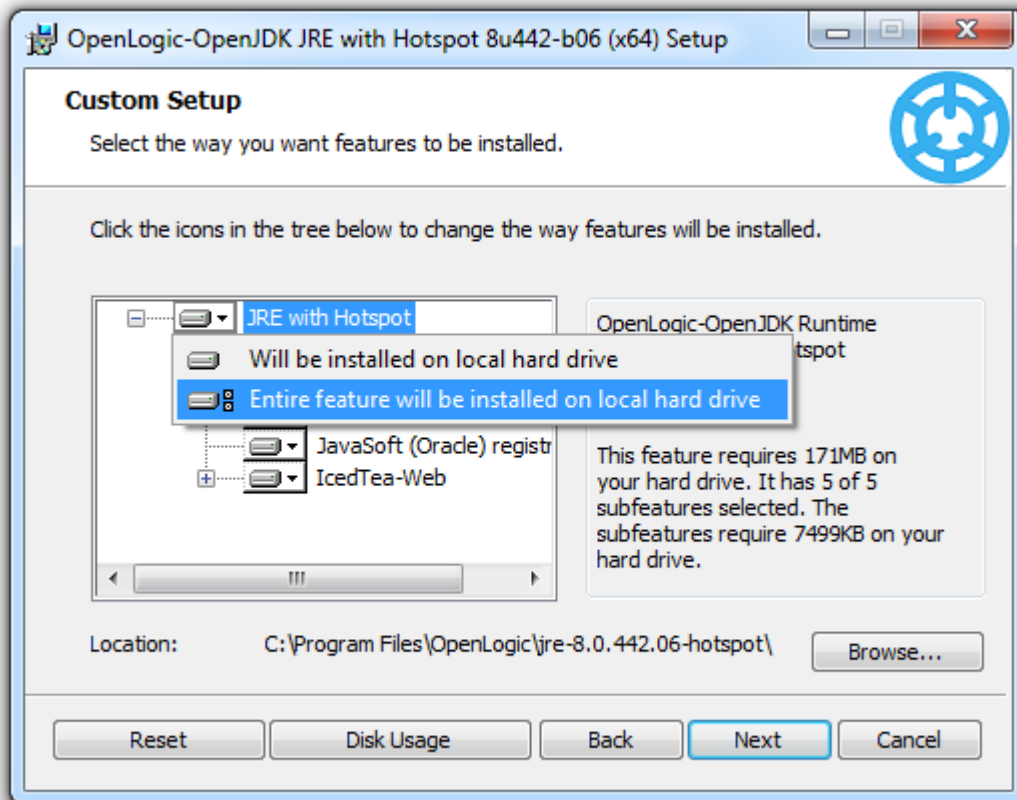

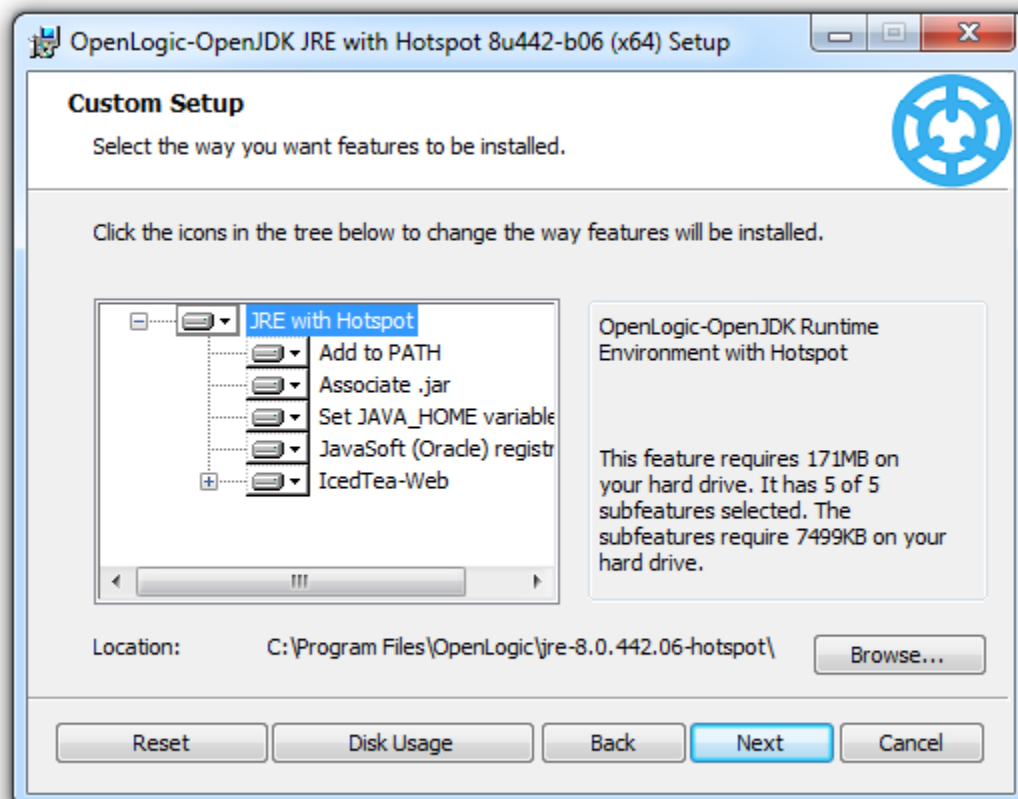

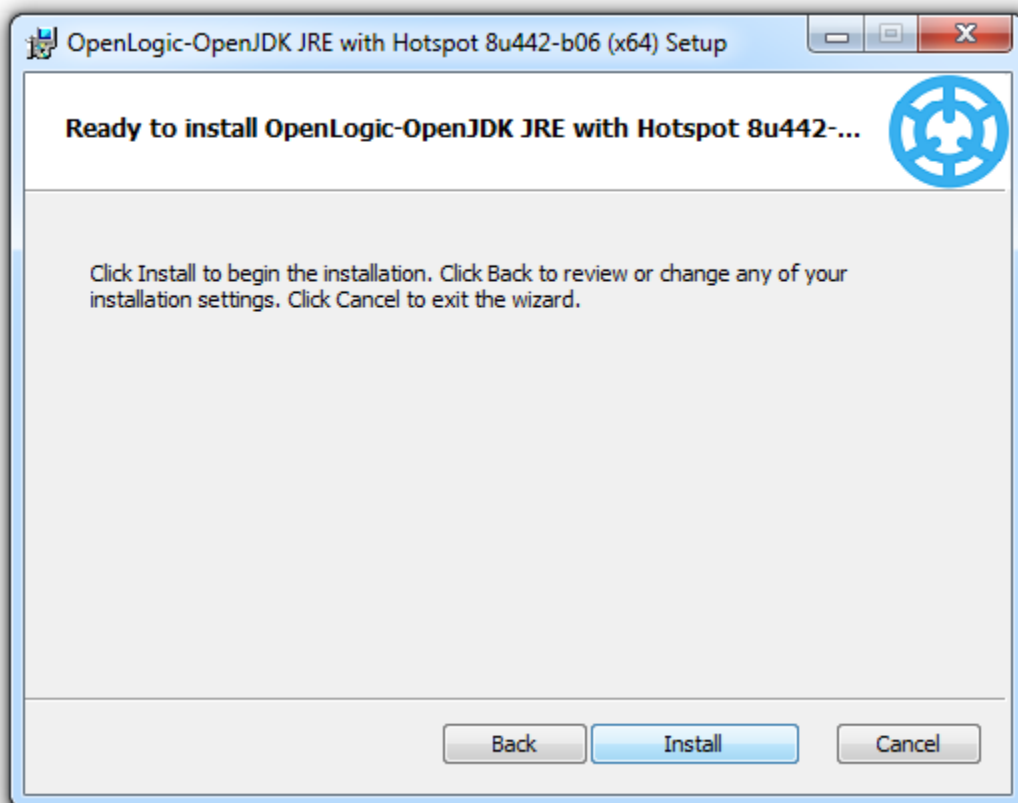

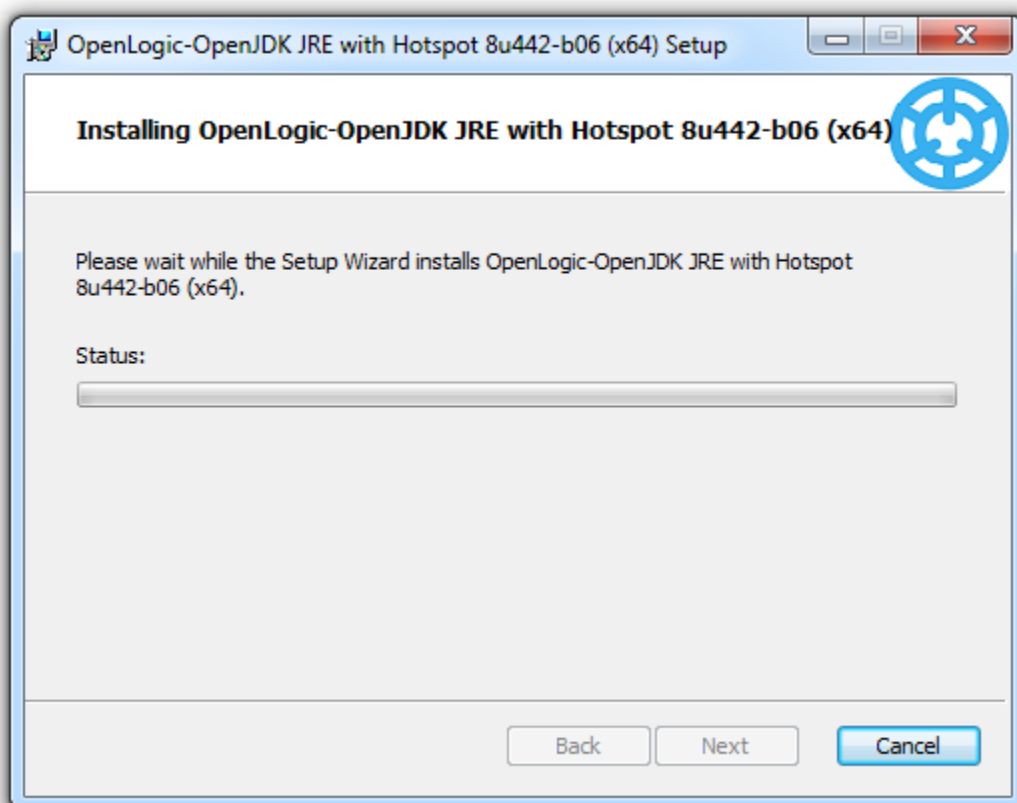

During the JRE installation, select 'Entire feature will be installed on the local hard drive' in all drives.

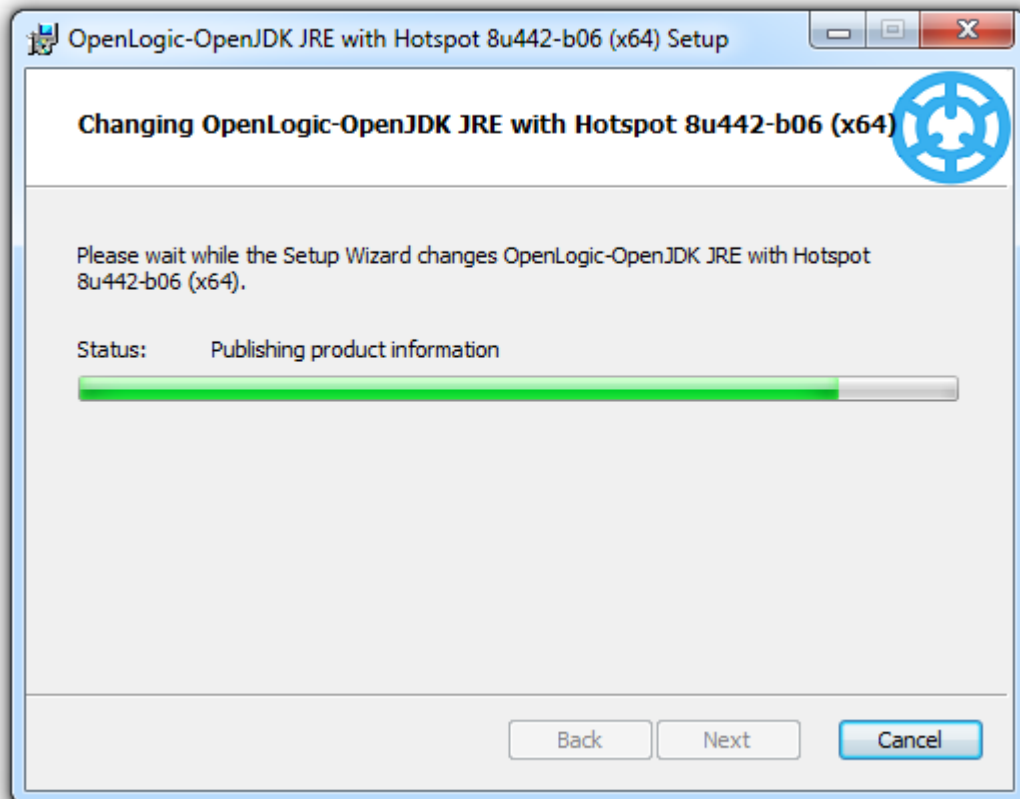

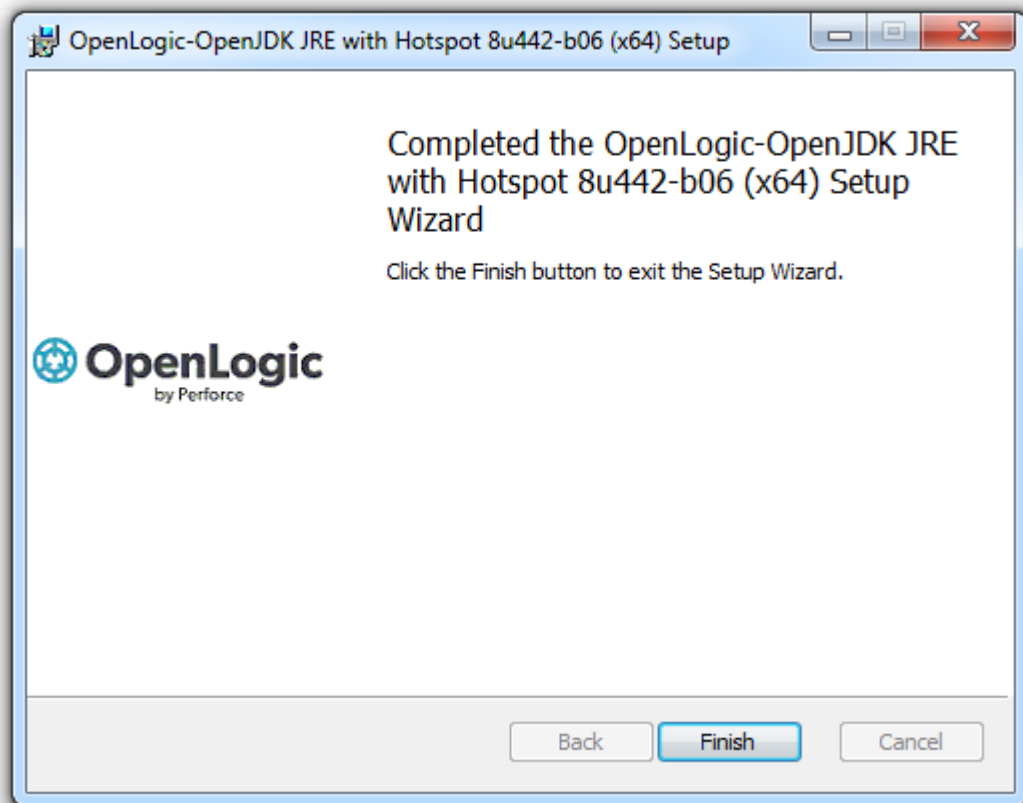

2) PKI Component Installation. Extract the file and then installed 32/64 according to your system.
